

Senior ASP.NET Developers

Prorize is seeking highly motivated senior ASP.NET developers to implement large-scale enterprise software that retrieves daily data from our clients and delivers business intelligence and optimized prices via website. The successful candidates must have the following skills:

- ASP.NET
- C#
- SQL Server
- JavaScript/jquery
- ASP.Net MVC Framework (Optional)
- CSS (Optional)

The role will work closely with other developers, Operations Researchers and Statisticians and will involve the following:

- Designing and implementing core components of a website using Microsoft ASP.Net MVC with C# and/or other necessary languages
- Documenting the design and implementation of the website
- Testing the quality of the core components of the website

Requirements

- B.S. (M.S. preferred) in Computer Science or related fields
- Minimum 3 years of experience in C# and .NET Framework, preferably with exposure to ASP.NET MVC
- Proficiency building high-performance web applications
- Proficiency using jQuery
- Knowledge of relational databases
- Fluent in English
- The candidate must possess the highest integrity, be a self-starter, and work equally well in teams or independently

About Prorize

Prorize is founded to provide price optimization services for major corporations. Our main focus is to help our clients sell their products at the most scientifically accurate prices.
